

BarathX

Creator collab brief · India's public square

barathx.com

@getbaratx

What we want people to feel

India finally has a place where its opinions matter — not as content for someone else's feed, but as a public square we built for ourselves. Pride. Relief. Courage to take a side. Belonging.

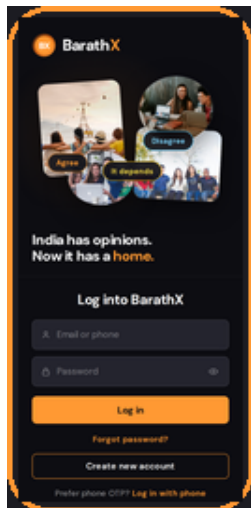

North star: India's moment to build its own digital public square — BarathX is that home.

What we're building

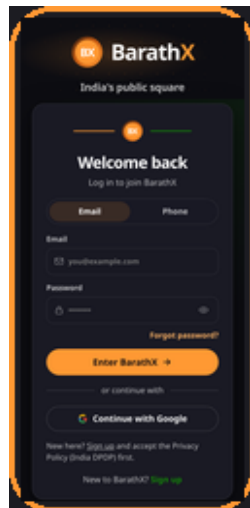

BarathX is a conversation network for India: Square (questions & takes), Arenas (pick a side / debates), and Live (argue in real time). Human takes only. No AI slop. Soft launch live now.

- Square — one question, your take, real replies (not Reels)
- Arenas — Agree / Disagree / It depends — debates that stay on the record
- Live — sided rooms, human voices
- Built by Indians, for Indians, owned by Indians

Collab ask

We're partnering with creators/pages whose audiences already talk and argue. Formats we like: Reel, Story, short mention, or Live on BarathX. Your voice stays yours — we send a crisp brief + assets.

Please reply with: (1) your promotion / collab rate, (2) formats you offer, (3) typical turnaround. We'll confirm scope and send creatives if it's a fit.
